FOR IMMEDIATE DISTRIBUTION**

SMART Modular Technologies to Showcase at MILCOM 2009

- Who:** SMART Modular Technologies, (WWH) Inc. (“SMART”) (NASDAQ: SMOD), a leading independent manufacturer of memory modules, solid-state drives (SSDs), embedded computing subsystems, and TFT-LCD display products
- What:** SMART will be showcasing its SSDs and industrial-grade flash product lines
- When:** October 19-21, 2009
- Where:** MILCOM 2009
World Trade Center, Boston, MA
SMART will be at booth #24 on the Plaza Level

About SMART

SMART Modular Technologies is a leading provider of memory products, offering more than 500 standard and custom products to top-tier OEMs in the computer, industrial, networking, and telecommunications sectors. Taking innovations from the design stage through manufacturing and delivery, SMART has developed a comprehensive memory product line that includes DRAM, SRAM, and Flash in various form factors. Under its Adtron brand, SMART also offers high performance, high capacity solid-state drives for enterprise, defense/aerospace, industrial automation, medical, and transportation markets. SMART's Display and Embedded Products Group designs, manufactures and sells thin film transistors (TFT) liquid crystal display (LCD) solutions to customers developing casino gaming systems as well as embedded applications such as kiosk, ATM, point-of-service, and industrial control systems. SMART's presence in the US, Europe, Asia, and Latin America enables it to provide its customers with proven expertise in international logistics, asset management, and supply-chain management worldwide. More information on SMART may be obtained at www.smartm.com.
